The developer of these nutraceutical health solutions is **Benjamin Baechler, MD**

Dr. Baechler received his medical training at the University of Minnesota Medical School with a focus on Family Medicine and Community Health. He received his undergraduate degree, with honors, in Immunology and Medical Microbiology from the University of Wisconsin-Madison, a leading research institution. Dr. Baechler's scientific and academic studies have concentrated in the areas of nutrient delivery systems, antioxidants and angiogenesis – the science of cellular growth and nutrient factors as related to blood vessel development and neoplastic spread. He was a recipient of the Angiogenesis Foundation of America Research Fellowship, has received the Hilldale Foundation Research Fellowship

and has participated in several research colloquiums.

He served as President of the American Medical Association-MSS and was a member of the Hennepin County Medical Physician Society's Board of Directors.

Dr. Baechler was also chosen as part of a special delegation from the University of Minnesota to spend time at the renowned North Hawaii Community Hospital, where progressive, complementary wellness and healing practices are integrated as part of total patient care.
