INSTRUCTION GUIDE

 **ENIVA®**

Grow Your Business Electronically!

Send Eniva information professionally through email and have links go directly to your website for purchase activity.

Have you ever wanted to capture the full content of an Eniva website page easily? Have you ever wanted to pop the information in an email, write a personal note and have a link for your client to purchase – plus, have the sale track to you?

You asked for it... and Eniva has delivered!

- ◆ Capture full-page content from Eniva website pages.
- ◆ Send an email with a personal message and contents embedded.
- ◆ Have pictures, links and “buy buttons” track to your personal web page.
- ◆ Utilize Twitter to also send quick messages and links.

Let's Get Started!

1). Visit **Eniva.com** with your Member ID # in the following format:
www.Eniva.com/?MEMBERID (e.g. **www.eniva.com/?123456**).

Click on "Eniva Product Line" icon.

NOTE: It is important to **begin your session on the initial HOME PAGE**, so the tracking is enabled and coded correctly.

The screenshot shows the Eniva website interface. At the top, the Eniva logo and tagline "Wellness to the World" are visible. The navigation bar includes links for Home, Discover Eniva, Products, Opportunity, Member Benefits, Health Library, and News. The date "Monday, February 1st 2010" and regional options for Eniva USA and Eniva Mexico are also present. A large banner image features a family and a VIBE product bottle with the text "THE BEST OF science & nature".

On the left side, a "Member ID: 123456" is displayed. Below it is a "Selections" menu with various product categories like "All Products", "Vibe All-in-One Liquid Nutritional", "UltraSHOT", "Resvante", "Beauty", "Cardiovascular", "Weight Management", "Targeted Nutrition", "Healthy Cooking", "Liquid Vitamins & Minerals", "Green Household", "Animal Health", and "Educational Tools". A "Body Explorer" link is also visible.

The main "Products" section displays a grid of VIBE products with their prices and "Buy Now" buttons. An annotation "A" points to the Member ID, and an annotation "B" points to the share tools (Facebook, Twitter, Email) located above the product grid.

On the right side, there is a "Product search" bar, "Member Login" and "Join Eniva Members" links, and a "Links" section with various website navigation options. At the bottom right, there are logos for "EFACOR" and "AGELESS RADIANCE".

2). Select the product you would like to share.

(A) Note your Member ID # in the upper left navigational pane is embedded in the site. If you would like, you can share a whole category of Eniva Products with the share tools (B).

3). You may also click on an individual product to go to the share tools on that product's description page.

Your Eniva Products Sharing Toolbox...

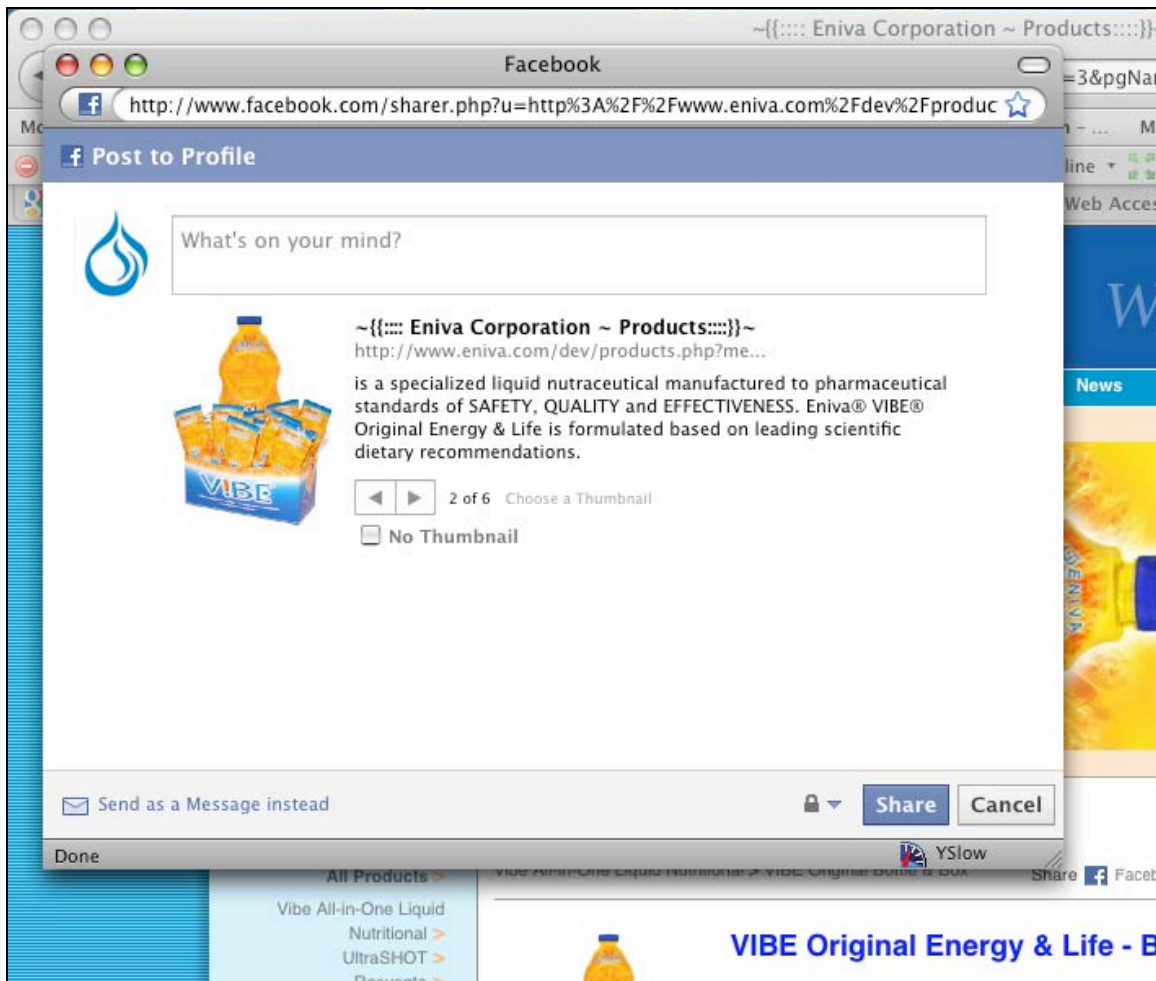

You have 3 options:

> **Facebook** - You can post a link back to the product's description page to your Facebook social networking page.

> **Twitter** - You can "Tweet" or post a short description of less than 140 characters along with a link to the product's description page.

> **Send** - You can send the product description, a short message and links to your Eniva Shopping site to up to 10 email addresses by clicking this link.

Sharing via Facebook...

4). By clicking on the Facebook icon, a smaller window with a status update field appears. Here you can just click **Share** to post the product. Or, enter additional information in the status update field. You can also select a thumbnail image to display with your post.

Facebook generates a link so your friends can click, in order to go to product info from the original site.

Once you click the **Share** button... all of your friends on Facebook will be able to view, click and share your Eniva product information.

Sharing via Twitter...

5). By clicking on the “Tweet” icon another browser tab or new browser window will appear. You then will log in to your Twitter account. Once logged in, a short description along with a link will appear in the update field. Twitter only allows 140 characters including the link. Therefore you may have to be creative on how you introduce the product link.

Once you click the **Update** button... all of your followers will be able to view, click, and share your product Tweet.

Sharing via Email...

Product you are going to share...

VIBE Original Energy & Life - Bottle & Box

Price: \$99.90

6). By clicking the Share icon, you will come to a form page where you will be able to directly email the product information right from the site.

A). Enter your first and last name...

B). Enter the full email address. You can enter up to 10 email addresses at a time. Be sure commas separate the addresses. (e.g. address1, address2, address3, etc...)

C). Enter a short message. This is optional, but it is a good way to provide a greeting or an intro. blurb regarding the product.

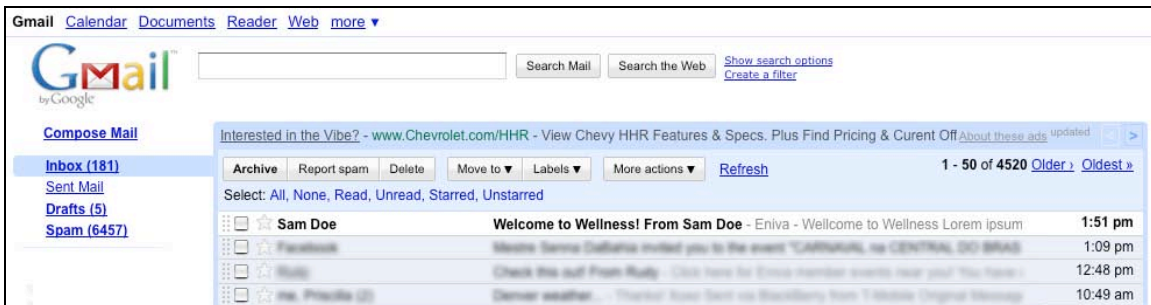

D). Here would be a field where you would enter your Member Id. In this example the Member Id is automatically embedded when you append your ID to the end of the URL like this: **www.Eniva.com/?123456**

E). Lastly, enter in the numbered code in the text field.* Click **SHARE**.

*This is a minor precaution to ensure the email being generated is indeed being sent by a human and not an automated program.

A confirmation page will appear. If you would like, you can click on “Send Again” to email the same product information again.

7). Note what the recipient receives in his or her email client...

The body of the email has 4 built-in sharing tools...
